VOLUME 35

FRIDAY JULY 31st, 1942

NUMBER 14

## Changes in Our Local School Teaching Staff

A number of new teachers will be on the staff of Raymond's Public and High Schools when the new term opens in September. Following are the resignations from the staff: Miss McCausland and Paul B. LeBaron from the High School, and Misses Ruth Evans, Martha Thomas, Hazel Hendry, Bird Mendenhall and Margaret Dahl.

At a Board meeting on Monday night last the following applications were accepted for positions on the staff: Wm. Hansen of Carleton Place, and Misses Margaret Allen, Marva Heninger and Hazel Redd of Raymond. The other vacancies have not been filled yet, but the Board is corresponding with teachers from which selections will be made in ample time for the commencement of school.

### NEWS NOTES

Carl Shields returned this week, after six months or so in the service. He was discharged due to ill health.

After a foggy morning Friday with a heavy dew and some rain during the night, the skies cleared and from about 10 a.m. on the day was nice and warm. We need a lot of them.

Frank Leavitt has left the employ of the Sugar Co. and is leaving soon with Mrs. Leavitt and Bert to make their home on the Pacific Coast where Frank will be employed with a construction company on government work.

Mrs. Williamson from Richfield, Utah, is visiting here with her sister Mrs. Louis Brandley. A party was held at the Brandley home in honor of Mrs. Williamson on Monday afternoon last, being held on the lawn.

Selling lumber and builder's supplies is no job these days. The job, according to the Raymond Mercantile Lumber yard is getting the materials to sell. So much has been required for government projects that only occasionally does an order for retail lumber merchants get filled. Shortage of labor also interferes with the delivery of cement, plaster and so on.

## Ward Outings Held

Both Raymond wards have held their annual outings during the past week. At the 1st Ward grounds last Friday afternoon, a large number of Ward members gathered at 5:30 and enjoyed a program of races, games, contests, and then a lunch, followed by a very enjoyable program finishing out the evening. Wednesday afternoon and evening the 2nd Ward met at the Stampede grounds on the east side of town for their outing and enjoyed races, games, and so on. Softball, horse shoe, tug o'war and other entertainment kept the various age groups occupied until dark. The bon fire was lighted then, and the program and the rain started about the same time, the rain storm winning, and the program of the evening having to be called off. Both outings are reported as very successful and enjoyable. Being held close to home this year to conserve tires and gas in line with the Dominion Government request.

### WEDDING BELLS

PERKS — HYDECHUK

The marriage took place in the L.D.S. Temple in Cardston on July 2nd, of Bernice Hydechuk, daughter of Mrs. E. H. Hydechuk of Wilson Siding, to James S. Perk of Mr. and Mrs. Howard C. Perk of Raymond. President E. J. Wood officiated. Mr. and Mrs. Perk will make their home in Raymond.

BAKER — RASMUSSEN

Miss Edna, daughter of Mr. and Mrs. Geo. Rasmussen, and Kenneth son of Mr. and Mrs. Phil Baker, all of Raymond, were quickly married in Lethbridge last week-end. They will make their home on the Baker farm north of town, where the groom is assisting in the operation of the same.

MECKS — COOK

Miss Phillipa Cook and Glenn, son of Jas. E. Mecks were married in Calgary last week in the presence of friends and relatives of the bride. They will make their home in Raymond where the groom has recently completed a new home, modern in every way. Glenn is engaged with his father and three other brothers in farming and cattle raising. The best wishes of the entire community is extended to these young couples for a long and happy married life with their full share of prosperity.

Mr. and Mrs. Lee Brewerton were in Magrath Thursday afternoon.

Nelar McMullin, who has been working at the Sugar Factories plant here for several years is being transferred to Vancouver in the employ of the B.C. Sugar Co.

Sergt. Pilot Don Wells, who recently received his wings in a graduation ceremony at Saskatoon, Sask., is enjoying a short leave with his parents and friends in Raymond. He is to report at a school on the Atlantic seaboard after his leave. Don is glad to be back in the West for a few days, the east is fine but Don says not like the west.

### NEWS NOTES

Mr. and Mrs. C. W. Selman were passengers to Calgary on Friday to spend the week-end.

Miss McCausland, a member of the High School staff last year has resigned and we understand has returned to her home in Ireland.

A suggestion is being considered by the Alberta Liquor Board and the Hotelmen's Association to not open any beer rooms in Alberta until 10 a.m. and to close them all at 10 p.m. Some have been remaining open until 11 p.m.

Alberta cowboys were to the fore in Regina in the rodeo recently when Floyd Peters took the calf roping, Urban Doan the bareback riding and Chet Baldwin the Wild Horse race. Muff Doan had his arm broken during the program.

## Magrath Is Badly Hailed -- Ridge Has Crops Damaged

The town of Magrath was visited by the most wicked hail storm of its history Friday evening last, when hail stones as large as hens' eggs and frozen to solid ice, came on the wings of a cyclonic wind and cut down everything in its path. It only lasted about ten minutes, but in that time the damage was all done and the storm was in its way to the south east taking everything in its path. Forcing just south of Macleod the storm did some damage there, then swept across the Blood Reserve in a south-easterly direction, apparently gaining momentum as it came.

It crossed the river and swept into Magrath in a swath about a mile and a half wide, on the wings of an 80 mile an hour wind, and what it did in and about the town defies description. A 50 foot tree on the Harry Bly corner was uprooted, with earth still on the roots and laid on the ground, the A. P. annex was twisted off square, and a section of track was moved and a rail twisted, a box car was blown off the tracks. Orchards and gardens were literally pounded into the ground. Crabapple trees were cut off to within a foot of the ground in places, and when the storm crossed Pothole it demolished hundreds of acres of lovely grain fields and hay crops as it travelled up the slope of the Milk River ridge and beyond, gradually dying out as it neared Milk River. The grandstand in Magrath's recreation park was demolished, the storm lifting off the roof and then collapsing the stand. An hour before 1,000 people had been in and about the stand at the Pioneer Day celebration. Walter Brown's barn was demolished and part of it blown against his kitchen wall, and so the story of the storm goes.

Raymond was untouched, but south about seven or eight miles the fury of the storm was felt over an area from 3 to 5 miles in width, where grain crops were pounded into the ground. The Meeks farm, Hutterville, Golden, Snow, Tom Mendenhall Ray Depew, Peter and Caesar Coopitress, Oscar Johnson, Fred Eigaard, J. LeRoy Anderson, the sons of J. D. Brown and Ray Knight, with 1,400 acres, were all victims of the storm, some being completely hailed, others partially. Two small boys of Oscar Johnson, were caught in the storm about 200 yards from Ray Depew's house and were badly battered when they reached there, by which time the fury of the storm was passing. The older boy pulled his little brother's head under his arm to protect him, and the hand exposed to the fury of the hail swelled to three or four times normal size, and both boys were black and blue all over from the peppering they received.

There is hope for most of the crops. If we get a late fall oats and barley and possibly wheat may mature for threshing, or will at least make a good hay crop. Beets, with the crown undamaged and about one inch of top left, will come back to within two or three tons per acre of what the yield would have been. There is not much hope for garages. It is estimated that from 25,000 to 30,000 acres of heavy crop was damaged in the storm. It is indeed fortunate that no one was seriously injured in the storm and cyclone, and while the loss is severe, its real damage will not be known until the season is over and we see what crops are taken off the hailed out land.

### NEWS NOTES

Mrs. L.D. King was ill the latter part of the week with an attack of appendicitis.

Mr. and Mrs. Tom Allen left by train Friday night for Vancouver, B. C. for a two weeks holiday trip.

Mr. and Mrs. Bert Nilsson and Mr. and Mrs. Evans Sabey were on a holiday trip to Fernie B. C. last week. Mrs. Bo. Goss, a sister of Mrs. Nilsson was met at the train in Fernie by the holidaymakers and enjoyed a couple of days in the mountains with them.

## Parents! Please Read

We have been informed by officials of the C.P.R. that trouble has been caused in the local railway yards by small boys throwing the switches, and leaving them partially open. On Monday a caboose and passenger car were pushed into one of the open switches and the Cardston train was delayed about two hours because of it.

Investigators are of the opinion that this is done by young boys who have the strength to open the switch, but cannot close it again. They ask parents whose children may play around the yards to explain to the boys the danger that opening these switches create and that the boys be asked definitely to leave the switches alone, as this creates trespassing on railway property and offender are liable to prosecution. Four mornings this week the same switch has been found partially open, and unless it is stopped officials of the Company will be forced to take action. Let us hope this warning will be all that is necessary.

## Bee-Hive Girls Enjoy Annual Camping Trip

### TORONTO CONVENTION REPORTED

Raymond Rotarians on Monday, listened to a report by President Russell Haig of the recent Convention of Rotary International held in the Royal York Hotel at Toronto. President Russell did not attempt to give any digest of the speeches given during the four day gathering, but spoke of the "House of Friendship" where delegates met to become better acquainted and to make new friends, and where many enjoyable friendships were commenced.

He commented on the theme of the Convention "Learning to Live Together" announced by President Tom Davis, retiring President of Rotary International and said a more timely theme could not have been found. All the speakers referred to it and enlarged on the various points of it. He urged his listeners to read the full Convention report in the July Rotarian to get the gist of the main speeches of the Convention.

Four other Lethbridge Rotarians were with President Russell and it made a very fine meeting with the local members present.

Peter Renton is home on a two weeks leave.

For real enjoyment throughout, see "Captains of the Clouds" now showing at the Capitol. Even if you are hard to please you will really enjoy this fine film. Tonight and Saturday.

J. E. Maxwell, Provincial Supervisor of Municipal Hospitals was a Raymond visitor Wednesday afternoon and had a long talk with A. W. Jones about our proposed hospital set-up.

On July 21st, 55 Bee Hive Girls and 7 leaders from the two Raymond Wards and Welling went for a 3 day camping trip out near Pot-Hole. They travelled by trucks which were donated through the kind generosity of Louis Brandley and Wm. Wilde. What with tents, bedrolls, food boxes and suit cases they were really packed in.

On Tuesday and Wednesday evenings they had a large Camp fire with a very interesting and entertaining program each night. Several car-loads of Raymond and Welling people visited the Camp for the evening program around the camp fire; the Y. W.M. I. A. executives bringing with them some nice treats for the crowd.

The girls named the camp "Camp Ramona," and buried a treasure containing a story of the doings of the camp for the three days and many other little interesting or comical articles contributed by each tent swam. The treasure will be dug up and read on the next camp trip.

The leaders at the Camp were Zella Woolley, Camp leader, Tillie Boyson, Camp Mother and Nurse.

Atha Peterson, Song Leader, Laurel VanOrman, Camp Craft, Verda Gibb, Jerks and Games, Vera Meldrum, Swimming, Edna Harker, Swam Leader and Asst. Camp Craft.

The group arrived home on Thursday evening tired but happy, with nothing more serious to show for the camping experience than a few sun-burned backs, mosquito bites and still talking of the fun they had trying to keep their tents anchored to the ground and the rain and hail out during the storm. All are hoping for another visit to "Camp Ramona" again next year.

## Crop Report

Crop conditions continue favorable, although dry weather, now for about three weeks would be very greatly appreciated. The rain storm Saturday and Sunday, with the heavy shower followed by more or less steady rain Wednesday night, has given the crops sufficient moisture to mature them, and with the heavy growth and heavy heads, ripening weather is the great need now. One crop of oats out on the slope of the ridge, is reported so high that when a man walks through the field all that can be seen is his hat moving along.

Winter wheat, rye and some spring wheat is turning now and could be cut with the binder, but most crops will be combined because of labor shortage. Oats and barley are coming along splendidly, but also need warm, dry weather for ripening. The second crop of alfalfa is about ready for the mower, and in view of the difficulties of harvesting the first crop, some of which still remains in the field, everyone would like to see dry weather for a week or ten days anyway to allow this second cutting to be taken care of.

Beets are doing very well, and to date no serious outbreaks of pest damage have been reported. Beets are late and we will need a good spell of growing and ripening weather to mature the stand to its best advantage. Moisture conditions have been very favorable and little irrigation has been required, especially where fields have been kept cultivated.

Everything considered, crop conditions are very good at this writing, and the right kind of weather for the remainder of the growing and ripening season is about the only question now.

CANADIAN BEAUTY

Dorothy Whyte, who has been one of the principal reasons for the success of CBC's Sunday Night Variety Show from Montreal (915 p.m. CDT, 8.15 p.m. MDT, over CBK Watrous), is spending a brief holiday in the West. Dorothy, whose fame has spread far and wide, was born in Plam Coulee, Manitoba. Her home is now in Montreal where she fulfills many radio engagements.

### DON'T TALK TOO MUCH

As the war grows more serious each day, people of the Allied Nations are asked to not talk about any matters that may either directly or indirectly assist the enemy in his effort to destroy and demolish freedom & democracy. So far away from active warfare we wonder if we ever think that our talk & our attitude may be detrimental to the cause of Victory. We are sure that no free man would knowingly say anything that would assist our enemies, and yet, we sometimes wonder.

We hear people decry the action of the Government in this and that matter, the delay in opening a second front; the disappointments suffered by our forces in the various battle-fronts; the taxes we have to pay; the treatment our enlisted men are receiving, all these and many other subjects are injected into the street and fireside talk of our people, and it creates an atmosphere that is not good. We may think nobody but ourselves will hear it, and probably that is so, at the same time, "as a man thinketh in his heart, so is he." We cannot constantly discuss failure without getting a defeatist attitude of mind, and every single person that assumes that attitude is helping the enemy.

Don't do it. If we can't uphold the actions of those who are on the front line and know what they are doing, let's not talk. If we can't accept our reverses with courage and fortitude and still feel that victory will be on the side of right, let's turn our radios off and not listen. We know these news flashes are not always cheering, but wars that include every nation on the earth are not won or lost in one move. There is a deep strategy that enters into every movement of every battalion. There

are problems of equipment, replacements, supplies, communications, air and naval support, and dozens of others that enter into every large scale objective. Be truthful, what do we know about these things here? If we are truthful, we must say, nothing. Then let us seal our lips, when we are tempted to talk against what is being done. Axis nations are paying fifth columnists millions of dollars to have them talk and create a defeatist spirit. When that spirit possesses a man or a nation the war is won for the Axis so far as that individual or nation is concerned.

We should blush with shame every time we criticize or condemn governments, either national or international. When we consider the problems they have faced and are facing, when we contemplate the successes made in the face of our unpreparedness and our change over from peacetime to wartime manufacturing, we feel that the highest of praise is due the men who have wrought this change. Let us be reasonable and sane, let us be fair and open-minded, and above all if we have nothing good to say, let us remember the Bible injunction "silence is golden." Never did these three words have a greater meaning than today. Grate them upon your heart, and if we cannot boost for victory, let us be very sure we do not knock.

Housewives may obtain extra sugar for threshing crews during harvest, by signing a voucher for the sugar stating that the extra requirements are for threshing crews.

Mr. and Mrs. Arnold Zabriskie and family returned Sunday from their vacation which was spent at Waterton Park. Not so many people are in the Park as usual Arnold says, but those who come stay longer than has been the practice in past years. Arnold reports fishing as very good and the golf was par or better most days.

### NOTICE

The Raymond Public Library will close Thursday, July 30th, and will remain closed for two weeks. All readers please take notice and plan accordingly.

Delia Woolf, Librarian.

## YOUR SCRAP METAL URGENTLY NEEDED!

This New Method makes Scrap Metal Collection easy for you.

More scrap steel and iron is urgently needed for more ships, tanks, planes, guns and munitions. You are asked to do your part by turning in every available ounce of scrap metal from your farm.

In order to facilitate the systematic collection of scrap iron and steel in the three Prairie Provinces, the Wartime Salvage Limited, a Government Company, has completed arrangements with the following Western Canadian Elevators for collection and purchase of scrap iron and steel:

Alberta Wheat Pool.

Saskatchewan Pool Elevators.

Manitoba Pool Elevators Ltd.

United Grain Growers Limited.

North-West Line Elevator Association.

These Companies handle and purchase this material on behalf of the Government without cost to the Government, and without profit to themselves. Any monies received over and above the actual cost of handling will be donated to War Charities.

An Agent of one of the above named Elevator Companies has been appointed in your district as an official buyer on behalf of the Wartime Salvage Limited. The price to be paid by these Agents has been fixed by the Department of Munitions & Supply at \$7.00 per net ton at the elevator, for all forms of scrap iron and steel excluding: (a) Sheet tin of any kind; (b) Automobile bodies and fenders; (c) Stovepipe; and (d) Wooden attachments.

This price applies at any designated point in the Prairie Provinces.

Your contribution to the war effort and to war charities is simplified by this arrangement and it will be more effective inasmuch as you now can take your scrap metal to the Elevator designated in your district and obtain a receipt for it from the Agent.

Should you desire to donate your scrap to the war effort, then such receipt voucher can be endorsed by you, payable to the Voluntary Salvage Committee in your community. The Voluntary Salvage Committee will use such money for war charitable purposes.

Your contribution of scrap iron and steel is urgently needed NOW. Dig out every available ounce of scrap on your farm and take it to the Elevator Agent nearest you without delay. Canadian war industry needs it badly.

Issued under authority of:

Department of Munitions and Supply

Department of National War Services

Wartime Salvage Limited

#### STARTING FALLOWS AFTER HARVEST

The desirability of fall cultivation of grain land that is to be fallowed the following year has been a moot question. Late fall cultivation has not shown any benefit, but in recent years the practice has been increasing of cultivating fields immediately behind the combine. This really means starting the fallowing in August instead of waiting until the following spring. Theoretically this seems to be desirable as it kills weeds that are growing in the stubble and so checks their use of the moisture that is received after the crop is cut. Experiments conducted by the Dominion Experimental Station, Lethbridge, indicate that cultivating land immediately after combining has been beneficial when weeds, especially Russian thistle, were growing in the crop. Where no weeds were present no benefit has been noted from the August cultivation.

From information to date available, it would seem to be a good practice to cultivate Russian thistle infested fields immediately after combining. Russian thistle plants which are making little growth in the grain have a tendency to increase in size rapidly as soon as the grain is cut. It has been found possible to kill these Russian thistles quite effectively by cultivating with blade or large duckfoot weeder.

This cultivation immediately after combining not only kills

the weeds and thus prevents them from using soil moisture but it has been found that it prevents most of the plants from forming any seed. Apparently the Russian thistle seed does not ripen to any extent in grain fields until after the grain is cut. Therefore, cultivating immediately after combining promises to provide a way for controlling Russian thistle. In one large area where for several years practically all of the fields have been cultivated after combining, Russian thistles have been almost eliminated.

The blade or large duckfoot weeder seems to be the best implement for this work as they leave the stubble standing erect so that it will trap the winter snow. Another extremely important reason why these machines seem best is that they do not destroy the stubble to any extent as does the oneway and so do not interfere with the preservation of a trash cover for protecting the soil during the following year.

The value of after harvest cultivation in areas where Russian thistles are not prevalent has not been estimated. However the method is being tried in the non-Russian thistle districts and its value in those localities will eventually be determined. At least there is evidence that after harvest cultivation assists in the control of Canada thistle and other perennials. Also there are indications that lifting the stubble out of the ground with blade weeder after harvest will destroy sawfly pupa by exposing them to the weather.

#### ANSWERS TO ALL YOUR SUGAR PROBLEMS

Many problems and questions have been submitted to the Consumer Branch of the Wartime Prices and Trade Board. Answer to a number of these questions are given as follows:

Q. Is any allowance of sugar made for the making of pickles or bottled fruit juices?

A. No sugar is allowed for pickles. In the case of fruit juices the same allowance is made as for canning and preserving, 1/2 pound of sugar for every pound weight of fruit.

Q. Can beekeepers obtain sugar?

A. Yes. Any person who keeps honey bees may apply for registration as an individual user of sugar. Application stating the name and address of beekeeper, the number of colonies of bees kept, and the amount of sugar required up to the end of September, should be made to the provincial apiculturist in the province for Alberta Mr. W. G. Leitch, Terrance Buildings Edmonton.

Q. Can extra sugar be obtained for special functions?

A. No. Hostesses and organizations for social and charity functions, must provide sugar from their own rations or request their guests to bring their own, unless such functions are sponsored by the Red Cross and provided with sugar supplied by the Red Cross.

Q. Can sugar be obtained for canteens serving the armed forces?

A. Yes. Restrictions as to the purchase of sugar do not apply to purchases by the Red Cross Society or for any canteen or mess situated within the limits of naval, military or air force camps, barracks or similar establishments.

Mr. and Mrs. Bert Nilsson and other relatives here, are enjoying a visit from Mrs. Nilsson's sister Mrs. Minnie Borgess of Salinas, California. She arrived last week.

## A SCARCITY OF BUTTER

There is a very great likelihood that butter may become less plentiful as the season advances, and it is advisable that Canadian people begin to save it now. It is not so much a question of using less butter, as of wasting less. The following suggestions for economizing on the use of butter are offered by the Women's Section of the Agricultural Extension Service.

1. Use lard or other shortenings instead of butter for baking. 5/6 of a cup of pure fat is equivalent to one cup of butter for this purpose.

2. If butter must be used for baking, use only 1-2 the quantity called for and make up the balance with lard.

3. Chicken fat may be used for pan frying or in cakes and pastry. It is delicious for this purpose.

4. Pan frying need not be done in butter. Lard or dripping may be used.

5. Save butter papers. They may be used for buttering baking pans.

6. Melt butter to be used on vegetables. A lot less will be needed if this is done.

7. Keep butter in a cool place. Firm butter goes further than soft butter.

8. Don't cut off too large a piece of butter for table use. It gets untidy looking and more of it will be used when in this form. With small pats, there is less waste.

While the consumption of butter is increasing in Canada, the production in 1942, as compared with 1941, is lower, and it is, therefore, necessary for every effort to be made to conserve the use of butter.

## NEWS NOTES

Miss Agnes MacDonald, stenographer at the Bank of Montreal is away on her holidays at present.

W. E. Ross and W. Richmond of the Calgary Power Co. Ltd., were visitors in town on Monday and attended Rotary at noon.

If you doubt there was a lot of hail in Friday's storm in Magrath, laugh this one off. On Wednesday, Grant Crookston froze ice cream with hail stones gathered up on the north side of his house.

## FARMERS WIVES SIGN

### VOUCHERS FOR SUGAR

For the farmer's wife who is wondering how to supply sugar for table use when gangs of hungry threshers or harvesters come to her home, it is arranged that she may purchase the needed supply by voucher. That means she, or someone authorized by her, will go to her regular retail store and sign a purchase voucher provided there for the sugar. On the voucher will be marked "harvest workers" or "threshing crew," the number of men at her farm, and the length of time they will be there. The retailer will follow the usual procedure of accepting the voucher, and supplying the sugar she is entitled to, on the ration basis.

Quite a number of Raymond people were in Magrath Sunday and Monday viewing the havoc wrought by the hail storm Friday evening.

Canning and bottling of peas and beans is on now, and from the lovely gardens grown this year every family should have all they can use if there is a little organization taken in the crops.

## TAKE TIME

Take time to live. That is what time is for.  
 Killing time is suicide.  
 Take time to work. It is the price of success.  
 Take time to think. It is the source of power.  
 Take time to play. It is the fountain of wisdom.  
 Take time to be friendly. It is the road to happiness.  
 Take time to dream. It is hitching your wagon to a star.  
 Take time to look around. It is to short a day to be selfish.  
 Take time to laugh. It is the music of the soul.  
 Take time to play with children. It is the joy of joys.  
 Take time to be courteous. It is the mark of a gentleman.
